### **REMARKABLE HEALTHCARE, A SPA-LIKE NURSING FACILITY, OPENS 3RD NORTH TEXAS LOCATION TODAY IN SOUTH DALLAS**

Remarkable Healthcare celebrates its new Dallas location with a GRAND OPENING Thursday, March 28, 2013 from 5:30 pm to 7:30 pm at 3350 Bonnie View Road, Dallas, TX 75216. This new location is in addition to the Texas resort-like facilities that are already opened in Seguin and Fort Worth.

“On the journey of life”, this unique facility strives to impact lives in a truly *remarkable* way. The sunflower logo even symbolizes this aspiration beautifully. “As it towers above other flowers, the sunflower is reaching towards the sun and sky--allelopathy is a result. Allelopathy is a biological phenomenon where an organism, such as the sunflower, positively influences the **growth, survival, and recovery** of the other plants around it.”

Having a sanguine affect on the community is what this amazing new facility is aiming for. Words like passion, resort-like, spa, beauty, family, community, fun, fulfillment, healing, all come to mind when you visit the facility.

From a stellar surgery recovery program to stroke, oncology and respite; and palliative to diabetic management education...the list of services is extensive. Higher level care including full in-house therapies, 24 hour nursing and 24 hour, 7 day a week admissions. This nursing establishment is beyond the norm, above the fray, one of a kind, it lives up to it's name: Remarkable Healthcare.

The founders of the healthcare center, Laurie Beth and Jon McPike, are a local married couple with 7 children. When asked what they wanted to do for the rest of their lives: “We started by listing our priorities, both personally and professionally. Helping others and caring for people at their most important moments landed at the top of the list. That priority is what motivated us to get into the healthcare industry 25 years ago, and it is still the number one passion that motivates us today. In particular, we love watching people improve and grow after a devastating illness/ injury, and enjoy doing whatever we can to help people thrive in the later stages of life. We put this all together and Remarkable Healthcare was born. We started the company with that foundation anchoring everything we do and every decision we make. Therefore, we are adamant that our community culture be REMARKABLE,” - Laurie Beth and Jon.

Laurie Beth is a licensed physical therapist of 20 years with extensive background in post acute continuum of care, covering all aspects of physical therapy, a BS degree in

Physical Therapy from the University of Kansas and her MS in Health Care Administration from Trinity University; and her husband Jon has 24 years working in the nursing home industry, starting out his career as an Activity Director. He worked three years as the Assistant Director of the Dallas County Ombudsman Program before becoming a licensed administrator. He is a proven healthcare leader in the Texas nursing home industry with a strong track record of successful start ups, turnarounds, and sustaining stellar operational and financial performance at these facilities. He earned a Bachelor of Arts degree from Dallas Baptist University. He is currently a Licensed Nursing Facility Administrator in the state of Texas.

The team is ready and waiting to show you “Something Remarkable Here”!
